

# World Building Workshop: Kids Kingdom

## Overview:

In the "Kids Kingdom" workshop, children can unleash their creativity by designing their own fairytale kingdom by developing new lands, peoples, and legends. They will create unique landscapes, buildings, and short stories through drawing, character development, and storytelling. This workshop invites students to embark on a magical journey where their imaginations run wild, bringing their creations to life. It can be tailored to a key stage or the entire school.

**Suitable for:** KS1 and KS2 children

**Duration:** 45 minutes to 1 hour

## Workshop Objectives:

1. Foster Creativity: Encourage children to use their imaginations to create unique characters, landscapes, and buildings for their fairytale kingdoms.
2. Develop Artistic Skills: Enhance drawing and design skills as students visualize their ideas on paper.
3. Enhance Storytelling: Promote narrative skills by guiding children to develop engaging short stories about their kingdoms and characters.
4. Encourage Teamwork: Foster collaboration as students work together to share ideas and create a cohesive kingdom.
5. Build Confidence: Provide a platform for students to present their creations, boosting their confidence in sharing their work with peers.

## **Materials Needed for Kids:**

- Drawing paper for designing characters, landscapes, and buildings.
- Colored pencils and markers for bringing their kingdoms to life.
- Scissors and glue sticks for creating and assembling their designs.

## **Alignment with the National Curriculum:**

This workshop aligns with several areas of the National Curriculum, particularly in English and Art:

- **English (Writing and Spoken Language)**
  - Creative Writing: Children will create imaginative stories and character backgrounds, enhancing their narrative skills.
  - Storytelling: Encourages the development of storytelling techniques, including plot structure and character development.
- **Art:**
  - Drawing and Design: Children will practice their artistic skills as they illustrate their kingdoms, landscapes, and buildings.
  - Creativity: Students will express their ideas visually, enhancing their ability to think creatively.

- **Personal, Social, and Health Education (PSHE):**
  - Collaboration: Working in teams promotes social skills and cooperation.
  - Emotional Expression: Allows children to express their feelings and ideas through their creative work.

This workshop provides an engaging experience that nurtures creativity, storytelling, and collaboration, making it an exciting addition to your classroom activities!
